

[About UCGO](#) [1]

The University of California Global Operations (UCGO) website is a portal to information and resources to help facilitate your international activities, projects, and travel. This website offers UC faculty, staff and students answers to some of the fundamental questions and issues common to international work, with links to UCOP and campus offices to help you with your specific concerns.

To help you navigate this complex material, the website is designed to allow you to engage in several different ways: by your role, by your international activity, by the timeline of your project, or by general topic.

Can't find what you are looking for? Use the "Search UCGO" function, contact your campus international office, or send an email to UCGO.

This website will be updated with additional resources and content. Please send us your comments as they are essential to the improvement of this site.
