

[Travel to Conferences](#) [1]

When traveling to international conferences most of the considerations outlined in the section “Planning Your Trip” will be applicable - registering for travel, obtaining required visas, safety considerations, etc. In addition, travelers should also pay attention to securing their laptop information and those presenting at conferences should also consider protecting their inventions before they publish or present them at conferences.

A couple of things to think about when going to a conference:

1. Traveling with your [Laptop and Data Security](#) [2]
2. [Disclosing your Invention](#) [3] to your tech transfer office prior to your presentation
