

[UC International Presence](#) [1]

While the University does not have a comprehensive database that maps its international presence, UCGO is using this space to collate information on UC international research, teaching, and services abroad. This section includes UC international partnership agreements, MOUs, joint ventures, and affiliations. Please [contact us](#) [2] with updates to this information.

UC Berkeley

- [Departmental and institutional Partnerships Database](#) [3]

UC Davis

International Linkages Database:
